

Solace is more than a roof—it's a refuge.

Our mission at Solace Sober Living and Recovery Inc. is to provide safe, stable housing for individuals in recovery—grounded in dignity, emotional healing, and community connection. We integrate wellness, personal growth, and practical support to empower lasting transformation.

Our philosophy is rooted in the conviction that every individual facing addiction deserves a safe, structured, and supportive environment where healing and sobriety can flourish and personal growth is nurtured.

It is an endeavor rooted in personal family pain and taking years of hard work, facing hard truths and hoping, always hoping to come out victorious!

Why choose Solace?

Many sober living homes offer only a bed. Solace offers structure, accountability, and hope. We provide real programming, real aftercare, and real community—because recovery deserves more than survival; it deserves dignity and a future.

Your support directly funds safe housing, professional staffing, transportation and long-term sustainability, ensuring residents receive the care and tools they need to thrive.

VETERAN RECOVERY

We are committed to serving individuals who have served in all military branches. We offer reduced rates and resources for veterans seeking recovery.
